

TECHNICAL PARAMETERS

Following types of hoods are produced:

Marking of hoods	PP – 0
Luninosity of a heelpost [mm]	600 x 600
Maximum proportions at closing [mm]	900 x 900 x 115
Pressure resistance MPa	0,02
Weight of a construction [kg]	60,5
Weight of a hood [kg]	28,2
Gastightness	400 Pa

Marking of hoods	PP – 8
Luninosity of a heelpost [mm]	Octagon with inscribed circle 600 mm
Maximum proportions at closing [mm]	860 x 780 x 210
Pressure resistance MPa	0,83
Weight of a construction [kg]	137,2
Weight of a hood [kg]	55,7
Gastightness	400 Pa

A note to a next table:

P – floor, P – a hood

0; 8 - a pressure resistance
